Welcome to Q-REX!

Your modular platform for on-demand quality reporting

Our vision

We want to contextualize, orchestrate and transform your quality-relevant data into GMP-compliant quality reports!

- **Automated data collection & analyses**
- **One-click PQR / APR & OPV / CPV report generation**
- **21 CFR and GMP annex 11 compliance**

What you get out of it

Simplify the generation of your quality reports, eliminate error-prone manual processes and get rid of data integrity issues with our end-to-end digitized solution.

- **Increased efficiency and compliance**
- **Huge time and cost savings**
- **Enhanced data integrity**

What we already have

We provide the knowledge, the know-how, and Q-REX – a web-based prototype for the creation of validated reports.

- **Cloud or on-premises solution**
- **Seamless data integration**
- **Digitized workflow & approval processes**

Become a pilot customer

We are looking for interested pilot customers for our new quality report software. Benefit from numerous advantages and let's fine-tune the product together.

- **A say in product design & development**
- **Free feasibility study**
- **50 % off for one subscription year**
